

Strategic Advisory / Executive Coaching Services

We work with business leaders and executive teams to define realistic objectives. Together, we develop decisions, action plans, and milestones to make sure they stay on strategy, and on track.

Developing and executing strategy

- Defining and articulating strategic objectives and a path forward for the company and leadership team
- Understanding and framing challenges / issues; making it possible to create a plan for action or to get over a hump
- Providing leadership approaches and tools to support improved business results
- Assisting leaders to coach their teams to perform consistently and respond positively to change
- Building internal leadership capabilities
- Enhancing effectiveness of teams (including Boards and executive committees)

Managing career transition (and transformation)

- Providing guidance, structure, and candid feedback to enhance success in securing a new position
- Building fundamentals of (and tools for) a job search strategy
- Guiding execution of your strategy (including interview preparation, marketing, and evaluating options)
- Establishing plan for first 90 days in a new role
